Learn in Your Own Office, or Home, How MARCH'S THESAURUS DICTIONARY

1462 pages, each 7¼" x 10¼", yet only 2¾" thick because of special thin opaque paper. Bound in Buckram, with Gold Stamped Title.

places in your hands a complete command of the whole English language and thousands of facts which you need daily.

By its unique patented arrangement of grouping related words, you are enabled to instantly locate any word for the exact shade of meaning you wish to convey.

It not only defines the words you know, but FINDS and DEFINES the words you may not know; for instance, under "Truth" you find 1000 words covering truth and its opposites, *fraud, error*, etc. Invaluable to writers, public speakers and educators. Needed in every home because it develops—in child and parents alike—the habits of precision and accuracy of speech and of association of words and facts.

This book, of which three large editions have been already exhausted, was called "the chiefest tool of the writing man" because of the complete mastery of English which it placed in the hands of the user, enabling him to choose instantly the exact word for his every purpose.

This New Amplified Edition

contains all that made March's Thesaurus "a reference book of international fame" (World's Work), plus the chapters which are complete textbooks on English grammar, English composition, the evolution of writing, word building, Biblical references, up-to-date geographic and historic facts. By these additions its usefulness to writers, speakers, educators, students and for every office and home use has increased beyond computation.

The Important Words of the Leading Arts and Sciences

prepared by Science Service, Inc., with the aid of specialists in the respective sciences. These words are defined and grouped by the March's Thesaurus method which makes available at once the word you cannot recall. A single reference in this section places before you not only the word sought but all of the related words in that science as well.

To the scientist, or the man interested in scientific subjects, the value of this section is beyond computation.

It enables you to easily locate facts which in themselves constitute a liberal education, up-to-date geographical facts not found in the largest gazeteers, the famous characters of literature and their dominant traits, the pseudonyms of noted authors, etc.

"Valued by those who wish to use their mother tongue with accuracy, precision and effectiveness," says the *New York Times*.

You need this book because of the complete mastery of the English language it places in your hands, giving you the ability to crystallize your thoughts into definite, living words that convey your ideas exactly.

Answers Thousands of Questions Like These:

- Who invented celluloid and when?

Despite the addition of thousands of new words, including those which arose out of the World War; despite the fact that this Amplified Edition covers the only list of words known from all the leading sciences; despite the addition of valuable illustrations and diagrams, it has been possible to reduce the cost of this new Amplified Edition to a new low price. And so firmly do we believe that you will instantly realize the value of this book, we want you to see it before you buy it.

SEND IN THIS COUPON TODAY. Keep the book 10 days. Note how it instantly gives you complete control over your choice of words. Use it to answer the thousand and one questions which arise daily. See how easily it supplies the word you do not know or have forgotten, and DEFINES it so that you know you are using it correctly. Then, if you do not find it the most valuable book you have owned, you have but to return it and we will refund your deposit without question.

"Anyone who has use for a dictionary has an equal need for March's Thesaurus."

—Dr. Edwin E. Slosson.

"Cannot be too highly praised."—*Forum*.

"Valued by those who wish to use their mother tongue with accuracy and effectiveness."—*New York Times*.

"It not only defines known words but also supplies just the right words you need for each shade of meaning."
