SCIENCE NEWS LETTER

The Weekly Summary of

Current Science

Published by

SCIENCE SERVICE

The Institution for the Popularization of Science organized under the auspices of the National Academy of Sciences, the National Research Council and the American Association for the Advancement of Science.

Edited by Watson Davis

Subscription rates—\$5.00 a year postpaid. 15 cents a copy. Ten or more copies to same address, 5 cents a copy. Special reduced subscription rates are available to members of the American Association for the Advancement of Sci-

In requesting change of address, please give old as well as new address.

Advertising rates furnished on application.

Board of Trustees of Science Service

Board of Trustees of Science Service

Honorary President, William E. Ritter, University of California. Representing the American Association for the Advancement of Science, J. McKeen Cattell. President, Editor, Science, Garrison, N. Y.; Burton E. Livingston, Johns Hopkins University, Baltimore, Md.; Raymond Pearl, Director, Institute for Biological Research, Johns Hopkins University, Baltimore, Md. Representing the National Academy of Sciences, John C. Merriam, President, Carnegie Institution of Washington; R. A. Millikan, Director, Norman Bridge Laboratory of Physics, California; David White, Senior Geologist, U. S. Geological Survey. Representing National Research Council, Vernon Kellogg, Vice-President and Chairman of Executive Committee, Permanent Secretary, National Research Council, Washington, D. C.; C. G. Abbot, Secretary, Smithsonian Institution, Washington, D. C.; Harrison E. Howe, Editor of Industrial and Engineering Chemistry. Representing Journalistic Profession, John H. Finley, Associate Editor, New York Times; Mark Sullivan, Writer, Washington, D. C.; Marlen E. Pew. Editor of Editor and Publisher, New York City. Representing E. W. Scripps Estate, Harry L. Smithon, Treasurer. Cincinnati, Ohio; Robert P. Scripps, Scripps-Howard Newspapers, West Chester, Ohio; Thomas L. Sidlo, Cleveland, Ohio.

Staff of Science Service

Acting Director, Vernon Kellogg; Managing Editor, Watson Davis; Staff writers: Frank Thone, Emily C. Davis, Jane Stafford, Marjorie Van de Water, J. W. Young, Elizabeth Spence; Libratian, Minna Gill; Sales and Advertising Manager, Halke Jenkins.

Copyright, 1931, by Science Service, Inc. Republication of any portion of the SCIENCE NEWS LETTER is strictly prohibited since it is distributed for personal, school, club or library use only. Newspapers, magazines and other publications are invited to avail themselves of the number of the numbe merous syndicate services issued by Science Service, details and samples of which will gladly be sent on request.

Publication Office, 1930 Clifton Ave., Baltimore, Md. Editorial and Executive Office, 21st and B Sts., N. W., Washington, D. C.

Address all communications to Washington, Cable address: Scienserve, Washington.

Entered as second class matter October 1, 1926, at the postoffice at Baltimore, Md., under the act of March 3, 1879. Established in mimeographed form March 13, 1922. Title registered as trade-mark, U. S. Patent Office.

DO YOU KNOW THAT

In one suburb of Berlin, there is a regulation which prohibits any woman from taking a child to board unless she has a diploma from a mothers' school.

A new type of electric gauge measures a hundred thousandth of an inch, and then magnifies the dimension 10,000 times so that a workman may quickly note the result.

A fir tree recently cut in Oregon had 838 annual rings, and charcoal records in the interior told of 12 forest fires it survived during the first 400 years of its life.

In comparison with the other continents of the world, Asia claims to have both the highest and the lowest places: Mt. Everest and the Dead Sea.

The life of cut flowers, fruits, and vegetables may be prolonged by storage in a carbon dioxide-treated atmosphere.

A study of some representative New Hampshire boys and girls showed that the great majority do not drink tea or coffee, but out of each 100 only 17 were drinking sufficient milk, only 21 ate enough vegetables and only 34 ate enough fruit.

Egyptian ladies shaded their eyelids with green malachite mixed in cosmetic preparations.

A curious outbreak of arsenical poisoning at Stoke-on-Trent has been traced to eating cough drops that had been dusted with arsenic trioxide.
