Television sees Democracy in Action

● AMERICANS have always been eager to share in the political life of our Democracy. This year, the two great political conventions will be filmed in Chicago and the reels will be rushed to New York for broadcasting over WNBT, NBC's pioneer television station.

Four years ago, in 1940, WNBT made television history, by directly telecasting the Republican Convention at Philadelphia and by broadcasting films of the Democratic conclave in Chicago.

When Peace comes, a greater and more widespread television audience—expanding into mil-

lions of homes equipped with RCA television—will see as well as hear Democracy in action . . . thanks to the new super-sensitive television camera, and other radio-electronic devices developed in RCA Laboratories.

Today, RCA research and engineering facilities are devoted to creating the best possible fighting equipment for the United Nations. Tomorrow, RCA—Pioneer in Progress—looks forward to supplying American broadcasters, and the American public, with still finer radio, television, and electronic instruments.
