

bers of Phi Beta Kappa (scholarship); 27 in Tau Beta Pi (engineering) and 71 have been elected to Sigma Xi, (science research). Papers of importance have been published by 62 in journals concerned with their field of work. At present 104 of the 240 are married and have a total of 65 children. Twenty-two of the women who were winners now devote full time to homemaking and child care.

### Honorable Mentions Awards

In addition to the 40 trip winners, who will attend the Science Talent Institute in Washington, an Honorable Mentions list of 260 in the Thirteenth Annual Science Talent Search will be announced Feb. 4. These high ranking contestants will be recommended to colleges and universities for their aptitude in science.

If they are as fortunate as those previously included in the Honorable Mentions list, they will receive offers of scholarships from many institutions of higher education seeking students with talent in science.

### State Talent Searches

Through an arrangement with Science Clubs of America 25 states and the District of Columbia are conducting state Science Talent Searches concurrently with the national competition. Nine of them have produced winners this year. In these 26 areas all entries in the national Science Talent Search will be turned over to state judging committees.

From their entries they will choose state winners and award scholarships to various colleges and universities within the state. Cooperating states are : Alabama, Arkansas, Connecticut, District of Columbia, Georgia, Illinois, Indiana, Iowa, Kansas, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Montana, New Hampshire, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia and Wisconsin.

The Annual Science Talent Search is conducted by Science Clubs of America, administered by SCIENCE SERVICE. Scholarships are provided and the Science Talent Search made financially possible by the Westinghouse Educational Foundation, an organization endowed by the Westinghouse Electric Corporation, for the purpose of promoting education and science.

Science Clubs of America is the international organization for science groups, in schools and out. Today more than 15,000 clubs are affiliated here and abroad, with a membership of more than one-third of a million young people. All are encouraged to participate in the Search and the National Science Fair.

Complete details of the national and the 26 State Science Searches are available from Science Clubs of America, 1719 N St., N.W., Washington 6, D. C.

Science News Letter, January 30, 1954

Actual elimination of *tuberculosis* from the world is a foreseeable possibility, UNESCO reports.
