At Last! A Complete Professional Telescope For Amateur Astronomers

The 4 Inch DYNASCOPE Reflector

Reg U S Pat. Off.

At an unbelievably low price!

FEATURES:

- 1 4 inch Parabolic Mirror
Aluminized plus Zircon
Quartz layer
- 2 3 Eyepieces—(1) 65X Huygen
(2) 130X—167X Achromatic
Ramsdens
- 3 Rack & Pinion Focusing
- 4 4-power Achromatic
Finder Scope
- Combination
5 Non-Friction
Equatorial &
Alt-Azimuth Mount
- 6 Bakelite
Tube
- 7 4-point Tube Suspension
- 8 Tripod with
Hardwood Folding Legs

- A Parabolic Mirror! • 4 Power Finder!
- 3 Achromatic Eyepieces, 65X—130X—167X • Folding Tripod!

• You will be truly amazed at the scientific accuracy and technical engineering built into this complete reflecting telescope. If you were to purchase the parts and assemble them yourself, you would spend much more than the unheard of low price of this precision instrument. And in building your own telescope you could never hope to attain the accuracy and co-ordination of parts which have been engineered into the Dynascope.

• The high resolving power of the parabolic mirror produces exquisite definition which clearly separates such celestial phenomena as double stars. The 4-inch mirror gathers $\frac{1}{2}$ more light than a $3\frac{1}{2}$ -inch mirror. The Dynascope parabolic mirror is aluminized and then coated with a layer of zircon quartz for maximum protection and lasting use. A parabolic mirror of such quality has previously been obtainable only in high-priced instruments.

• The Dynascope assembly includes everything—there is absolutely nothing else to buy. There are no added charges for extra eyepieces—or a view finder.

• The tripod with hardwood folding legs is fitted with position locks for absolute stability. Study the list of features and you will agree that this unprecedented offer is the most generous and all-inclusive you have ever seen anywhere. The usual Criterion money-back guarantee applies and, in fact, if you can duplicate this instrument for less than twice our unheard of low price, your money will be refunded at once. With a precision instrument like the Dynascope Reflector, production is necessarily limited but we can make immediate shipment at this time. Send check or money order now with full guarantee of satisfaction.

ONLY
\$44⁹⁵

WHOLE FAMILIES

will enjoy this Christmas Gift . . .

PICK OUT the Families, the Friends, Associates, Relatives on your Christmas list—those who have about the same kind of lively intellectual curiosity that you have—and give them *Science News Letter* for Christmas.

For example, perhaps a visitor in your home or office has recently picked up your copy of *Science News Letter* and has expressed interest in it. A year's subscription would be an appreciated present for him or for her.

Or, there's a promising younger person you want to encourage, maybe in high school or college who is doubtless studying one or more of the sciences. A year's subscription would be just the present for that boy or girl.

Or, you are interested in an employee, maybe a business associate, who'd not only be benefited, but be highly complimented if you gave him or her a subscription to *Science News Letter*.

You know from your own experience how *Science News Letter*, coming once a week with the latest news in science, written in the brief, clear, skilled manner of our trained scientist-writers, keeps you current on all matters scientific. It is the *right* present for *certain special people you know*.

Next to this column is a coupon for your convenience in filling in names and addresses. You can save money on two, three or more such Christmas gifts. The Special Rates for Christmas are:

One subscription (1 year).....\$5.50

EACH ADDITIONAL subscription..... 4.00

The more subscriptions you give, the lower your cost per gift. And one of the subscriptions can be a renewal of your own, thus increasing the amount of your saving.

CHRISTMAS COUPON

To Science News Letter
1719 N Street, N.W., Washington 6, D. C.

Please send *Science News Letter* every week of 1955 (and include the 1954 Christmas issue) to each of the following:
