

Do You Know?

Today's automobiles carry as many as 13 electric *motors*.

Annual per capita consumption of *paper* in the United States is 400 pounds.

Cattle sometimes lose weight because mosquitoes drive them from lush pastures to barren hillsides.

The flat shell of India's window *oyster* is so translucent it can be used as window glass.

Cotton acreage in cultivation in the United States is the smallest in over 70 years, 14% less than last year, and not much over a third of the area typically planted in the late 1920's.

A disease that affects the entire upper respiratory tract of *cattle*, sometimes called "red nose," has been increasing steadily since it was first recognized in feeding cattle in Colorado in 1950.

More than 25% of the people who die from *tuberculosis* come to the attention of health authorities for the first time when death occurs.

Ordinary stop-and-go driving by the average motorist produces more harmful *engine deposits* than the heavy duty operation of large trucks on mountainous roads.

Bird raisers can brighten up the plumage of *flamingos* by feeding them on ground up shellfish in addition to their usual diet of grass pellets, millet, rice and dried flies.

An *oil* filter will remove a pound or more of dirt and sludge from a car's oil during 5,000 miles of driving.
