# BOOKS ON ASTRONOMY

Other worlds and suns whirling in space have fascinated men since ancient times. Today, astronomers can photograph ice caps and areas of vegetation on Mars—strange rings around Saturn—vapor clouds around Jupiter. Through powerful telescopes they can see suns and nebulae invisible to us.

How much have you read of modern astronomy? Select several books from the list below, compiled by Science Service's astronomical editor, Mr. James Stokley. We will mail them, postpaid, at once.

- |   |   |
|---|---|
| <input type="checkbox"/> <i>The Sun</i> —Abbott. 1928.....\$3.50  | <input type="checkbox"/> <i>Fundamentals of Astronomy</i> —Mitchell and Abbot.<br>A splendid text that approaches the subject from the astrophysical side..\$3.00   |
| <input type="checkbox"/> <i>Star Names and Their Meaning</i> —Allen. Old, but still the standard authority. .... 5.00   | <input type="checkbox"/> <i>Sun Lore of All Ages</i> —Olcott.<br>Does for the sun what his "Star Lore of All Ages" does for the stars 4.50  |
| <input type="checkbox"/> <i>Popular Guide to the Heavens</i> —Ball. Recent revision of a work long standard. .... 7.50  | <input type="checkbox"/> <i>Meteors</i> —Olivier.<br>An exhaustive and well-written book that constitutes the only modern work on the subject in any language. 6.00   |
| <input type="checkbox"/> <i>A Guide to the Constellations</i> —Barton and Barton.<br>Best collection of maps for the beginner. .... 2.50  | <input type="checkbox"/> <i>Evenings with the Stars</i> —Proctor..... 2.50  |
| <input type="checkbox"/> <i>The Internal Constitution of the Stars</i> —Eddington. .... 8.50  | <input type="checkbox"/> <i>The Romance of Comets</i> —Proctor..... 2.50  |
| <input type="checkbox"/> <i>Stars and Atoms</i> —Eddington.<br>Delightfully written book by one of the world's leading astronomers on some of his most important researches. .... 2.00                            | <input type="checkbox"/> <i>The Romance of the Moon</i> —Proctor. 2.50  |
| <input type="checkbox"/> <i>Elements of Astronomy</i> —Fath.<br>Excellent elementary text..... 3.00   | <input type="checkbox"/> <i>The Romance of the Sun</i> —Proctor.... 2.50  |
| <input type="checkbox"/> <i>Beyond the Milky Way</i> —Hale..... 1.50  | Four books by the daughter of Richard Proctor, one of the great popularizers of astronomy, which show that she inherits much of her father's ability.   |
| <input type="checkbox"/> <i>The Depths of the Universe</i> —Hale..... 1.50  | <input type="checkbox"/> <i>Astronomy</i> —Russell, Dugan and Stewart. Per volume..... 2.48   |
| <input type="checkbox"/> <i>The New Heavens</i> —Hale..... 1.50   | Vol. I: The Solar System.<br>Vol. II: Astrophysics and Stellar Astronomy.<br>The revision of Young's Manual of Astronomy.<br>Though intended as a college text, this has become a standard reference work for professional astronomers as well. If a library could include only one work representing astronomy, this should be it. |
| <input type="checkbox"/> <i>Amateur Telescope Making</i> —Ingalls.<br>Complete directions for making small telescopes, which is not as hard as it might seem..... 3.00  | <input type="checkbox"/> <i>Source Book in Astronomy</i> —Shapley and Howarth.<br>Great advances in astronomy from Copernicus to the present, described in the author's original language. .... 4.00  |
| <input type="checkbox"/> <i>Astronomy and Cosmogony</i> —Jeans.<br>The mature work of a great astronomer giving the latest knowledge in a field to which he has himself been one of the chief contributors..10.25 | <input type="checkbox"/> <i>Astronomical Physics</i> —Stratton.<br>A full account of how the spectroscope has revealed stellar secrets.... 5.00   |
| <input type="checkbox"/> <i>Pioneers of Science</i> —Lodge.<br>Quite old, but still the best account of the early astronomers and their work. .... 2.50   | <input type="checkbox"/> <i>Star Atlas</i> —Upton.<br>Complete maps of all naked eye stars and lists of interesting celestial objects..... 3.00   |
| <input type="checkbox"/> <i>Eclipses of the Sun</i> —Mitchell.<br>The best book on solar eclipses and by one of the champion eclipse observers. .... 5.00   |   |
| <input type="checkbox"/> <i>Star Lore of All Ages</i> —Olcott.<br>Interestingly written and accurate... 4.50  |   |

## SCIENCE SERVICE BOOK DEPARTMENT

21st and B Sts., N. W.  
Washington, D. C.

Please send books checked to me, for which I
