### 900X "MICROBE HUNTER"

- The only Microscope in its class featuring **GRADE A** optics!
- Power Range 25X, 50X, 75X, 100X, 150X, 200X, 300X, 400X, 600X, 900X
- Full Range Fine Adjustment
- Safety Stop on Coarse Adjustment

This instrument—made to our rigid design specifications—has wide usage in schools, laboratories and law enforcement agencies. All of the most needed features have been incorporated to meet the requirements for diversified microstudies. Highly recommended for serious hobbyist desiring exceptional quality at modest cost. Power range from 25X to 900X in 12 possible combinations. Gearing rack and pinion coarse focusing. Micro-motion fine focusing of full range—12 complete revolutions. Safety stop prevents over rise. 36mm dual surface (plano/concave) mirror. Fixed square stage, 70mm X 80mm. Rotating 5-hole, disc diaphragm. Three Huygenian eyepieces of 5X, 10X, 40X and 60X. Oversize base insures stability and protects objectives. Body tilts through 60°—perfectly balanced at any angle. Complete with upright, wooden carrying case.

**F-338—List \$69.95.....Net \$39.95**  
(Add \$1.00 for postage and handling)

### IT FLASH

### FREEZES MOTION!

Exciting experiences in research and photography are possible with the new Geniac® **STROBOSCOPE**.

Designed to flash a brilliant neon light at precisely controlled speeds from one flash per second to 250 f.p.s. The **STROBOSCOPE** actually makes motion freeze before your eyes when its flicker frequency equals that of the vibrating object.

Used together with fast film and fast lenses, the Geniac® **STROBOSCOPE** creates multiple images on one film, and thus is useful in ballistics studies.

Essential for the research lab, photographic amateur, school or serviceman who wants to discover the causes of erratic vibration or to measure frequency accurately. The **STROBOSCOPE** can also be used in the laboratory through a microscope to observe moving cilia, vacuoles, etc.

Versatile, exciting, low-priced and accurate, the Geniac® **STROBOSCOPE** is available in kit form and assembled, complete with instructions and experiment manual.

**Kit** .....\$19.95  
**Assembled** .....\$24.95  
(Add 80¢ for postage & handling; in New York City, add 3% NYC sales tax)

### COSMOTRON

- **MINIATURE ATOM SMASHER**
- **PRODUCES 75,000 VOLTS**
- **ABSOLUTELY SAFE**

In no sense of the word a toy or a gadget. The **COSMOTRON** is a scientific instrument capable of producing 75,000 volts—makes sparks up to 2" long—yet is absolutely safe because the current is infinitesimal. The science teacher—science lover—or hobbyist can perform experiments to astound students—friends—family. Makes smoke disappear—defy gravity—turns propellers at a distance—transforms atomic energy into light—makes artificial lightning—smashes atoms—demonstrates ionic space ship drive—and many other experiments. Constructed of the finest materials. Will do exactly—for instruction purposes—what generators that cost 3 to 10 times more will do. The perfect device to teach the secrets of atomic physics and electricity. Will hold an audience spell-bound as it performs trick after amazing trick. Includes an experiment kit and illustrated experiment manual. Manual explains the "how" and "why." You will invent many new experiments of your own. A fine research tool that will give years of beneficial service to the institution or individual who owns one. In kit form or assembled.

**Kit Form** .....\$14.95

**Assembled** .....\$19.95

$$\frac{1-008^{31} \times \sqrt[3]{63} \times 4000}{6 \times \sqrt[5]{260000} \times 42^{1.42}} = 0.2495$$

### A 66-inch Slide-rule for your pocket, \$19.95

Slide Rule Open

The **GENIAC®** Calculator carries 66-inch spiral scales yet measures only ten inches fully extended and six inches when closed. Four to five figure accuracy can be relied on. It is indispensable to the scientist, research worker and student. Administrative staff and business men will find it of tremendous value for a host of estimating and checking calculations.

The **GENIAC®** Slide Rule solves multiplication, division, percentage calculation and gives 5 place logarithms.

You may use it for 30 days and if you are not satisfied repack and mail it back.

#### What our users say:

"It does all you claim—four or five figure accuracy without eye-strain or magnifiers. Half an hour's study is ample for its use." A.E.B.

"I use the **GENIAC** Calculator for all my slide rule work and need the extra digit which normal slide rules cannot give. I had to get one of my customers a **GENIAC** Slide Rule last month, after using mine in his office." E. & G. H. Textile Manufacturers.

# Why the 4-inch DYNASCOPE Reflector

Reg. U.S. Pat. Off.

is now used and approved by over 40 colleges and professional institutions

A Complete, Superior Telescope with Advanced Features

## Compare These Advances:

- 1) 4-INCH PARABOLIC PYREX MIRROR — aluminized and overlaid with zircon quartz for maximum life!
- 2) 3 ACHROMATIC EYEPIECES — 18-mm. Huygens, 9-mm. Ramsden, 7-mm. Ramsden—providing 65X, 130X and 167X!
- 3) RACK & PINION focusing!
- 4) 4-POWER Achromatic FINDER SCOPE With Cross Hairs
- 5) NEW IMPROVED MOUNT—fine equatorial with free moving polar axis, Adjustable for Altazimuth, too.
- 6) SIMPLE LATITUDE ADJUSTMENT—making your instrument usable anywhere in the world.
- 7) ALL-BAKELITE TUBE, brass-trimmed!
- 8) CLAMPS ON BOTH AXES—adjust instantly and permit smooth setting of either axis.
- 9) 33" hardwood folding TRIPOD!

## A SCIENTIFIC INSTRUMENT OF HIGH CALIBER AT LOW COST!

There's an excellent reason why the 4-inch DYNASCOPE Reflector is now the instrument used, approved and recommended by more and more schools, colleges, planetariums and professional astronomers. It is the remarkable scientific accuracy and engineering balance built into this complete telescope — at an incredibly low price! If you were to purchase the parts and assemble them yourself, you would spend much more than the unheard of low price of this precision instrument. And in building your own telescope you could never hope to attain the accuracy and co-ordination of parts that have been engineered into the Dynascope.

The 4-inch parabolic mirror produces exquisite definition of all the bright planets and is fully capable of splitting close double stars. (Note: the 4-inch mirror gathers  $\frac{1}{3}$  more light than a 3½-inch mirror!) Finished to exacting specifications and guaranteed to perform to the Dawes' limit of resolution for its size! A 4-inch parabolic mirror of such quality has only been obtainable in the highest-priced instruments up to now!

Manufactured and Sold Only By  
**The Criterion Manufacturing Co.**  
Manufacturers of Quality Optical Instruments

Telephone: Chapel 7-1696 • Cable Address: CRICO

## PROOF OF SUPERIORITY

(On Request — we will send a list of noted institutions now using the 4" DYNASCOPE)

### TESTIMONIALS:

#### From An Observer

On clear "good-seeing" nights my Dynascope easily reveals the Alpine Valley and the Straight Wall on the Moon, as well as three peaks in the floor of the Plato ring plain. It will split the star Mizar into its major components clearly. It will separate Saturn's rings and show six bands on the face of Jupiter. Also it will project a two-foot diameter disk of the sun showing sunspots in vivid detail . . . as an Englishman might express it, "Dynascope optics are a little bit of all right."  
—VICTOR W. KILLICK, in charge of Astronomical Observatory, Sacramento Junior College, Calif.

#### Many Years of Experience

. . . I have had many years of experience in astronomy, and as junior leader here in Atlanta I always recommend Dynascope.  
—LEONARD B. ABBEY, Jr., Decatur, Ga.

#### Cannot Be Equaled

I still don't see how you can produce a parabolic mirror of this focal ratio at the price . . . Epsilon Lyra was quite easy . . . on the 130 power ocular. I was more than pleased when it resolved this double as four tiny, sharp, brilliant gems . . . with the diffraction rings concentric and sharp.  
. . . For the price you ask, I do not believe that it can be equaled in any way. The oculars are excellent, and the entire instrument shows careful workmanship. How you do it is beyond me. —G. N. JOHNSTONE, Albuquerque, N.M.

# Fascinating New "Portable Laboratories"

—for young scientists

## CALCULO Analog Computer Lab

What is the range of a projectile whose initial velocity is 1200 feet per second at an angle of 40 degrees from the ground? With *Calculo*, you can easily solve this and other problems in square and cube roots, index of refraction, trigonometric functions, etc. With its lucid, 36-page manual, *CALCULO* provides a comprehensive picture of the fundamentals of computer theory—increasingly important in industry and research. Easily assembled; battery-powered. **\$16.95**

## ULTRA-VIOLET Science Lab

The theory of fluorescence—and its many applications in chemistry, mineralogy and other areas of research—demonstrated by nearly 50 engrossing experiments that can be conducted with this kit. Among the materials included are: ultra-violet lamp; rare mineral samples; fluorescent water colors, chalks, crayons and powders; clear plastic screen; phosphorescent screen; and manual of instructions and theoretical background, *The Story of Black Light*. **\$11.95**

## BRAINIAC K-30 Lab

New, improved version of the famous "electric brain" construction kit, adapted by its originator, Edmund C. Berkeley, exclusively for the Science Materials Center. Illustrates many absorbing digital computer circuits—reasoning, arithmetical, logical problems, puzzle-solving, game-playing, etc. Kit includes new patented wipers and multiple switches that turn on and off as many as 20 circuits at a time. 64-page accompanying manual of step-by-step instructions. **\$18.95**

## FREE CATALOG

400 science kits, instruments, toys, etc.—age-graded for young people from 4-16—are available through the Science Materials Center, a division of The Library of Science. Here is a central source of reliable, reasonably priced science materials, pre-tested and approved by teachers and working scientists. Check and return coupon to receive your Free catalog.

**NOTE:** Special quantity discounts to schools and institutions. Please write for details.
