MAKE FASCINATING SCIENTIFIC EXPERIMENTS FOR FUN AND KNOWLEDGE WITH

PROBABILITY & STATISTICS KIT K22

Make over 60 Experiments in
CHANCES, PROBABILITIES, and STATISTICS!

- Produced under the direction of Science Materials Center
- *If a World Series team has won the first two games, what are the chances of its winning the Series?*
- *How reliable is a sample of twenty observations?*
- *Are stars in the sky distributed randomly? What about towns on a map?*

The above posers are only a few of the provocative questions you can answer with our Probability and Statistics Kit K22—an irresistibly entertaining introduction to one of the most fascinating and far-reaching subjects in science today.

With this kit—by means of more than 60 intriguing, easy-to-perform experiments and exercises—you can see for yourself, at first hand, the scientific basis for predicting events . . . drawing statistical conclusions . . . making informed estimates in many chance situations . . . analyzing the patterns of chance happenings. You acquire a firm knowledge of many of the key ideas of probability and statistics THROUGH YOUR OWN EXPERIMENTS.

From the Instruction Book's preface by Dr. Frederick Mosteller, Professor of Mathematical Statistics, Department of Statistics, Harvard University, Cambridge, Mass.:

"In all the talk about science and mathematics, let's not forget that experimentation with mathematical ideas is fun. And hours and hours of such instructive fun are in the Berkeley book and lab. How do I know? In preparing this introduction, I have been greatly hampered by my not-very-studious 14-year-old who busily instructs me in the use of all these materials."

WHAT COMES WITH YOUR PROBABILITY AND STATISTICS KIT K22?

- Every Special Part needed to perform the experiments in the kit:
 - Variable Coin-Tossing Machine—to toss coins randomly or predictably or any stage in between
 - Quincunx (or Hexstat®)—a device for producing a great variety of statistical distributions by rolling 300 little steel balls past obstacles into 9 compartments
 - 5 specially-designed Sampling "Urns" and 75 black & 75 white Beads
 - Disc, Inclined Plane, and Scale for producing normal distributions
 - 30 Fair Dice; 50 Numbered Cards; Arrow Spinner and Circular Scale; and many more parts—totaling over 300 parts!
- Full descriptions of 27 Main Experiments and briefer descriptions of over 36 subsidiary experiments
- Book "Probability and Statistics: An Introduction Through Experiments" by Edmund C. Berkeley—140 pages—with a preface by Dr. Frederick Mosteller (Harvard University); includes a chapter by Martin Gardner.

STATISTICAL DISTRIBUTIONS DISCUSSED IN THE KIT AND EXPERIMENTS: Uniform Distribution in one and two dimensions; Binomial Distribution; Normal Distribution; Chi-Squared Distribution; Poisson Distribution; Multinomial Distribution.

PROBABILITY AND STATISTICS KIT K22 . . . another Berkeley kit with limitless possibilities and hours of built-in fun and instruction . . . \$16.95. (For shipment west of Mississippi, add 80¢; outside U. S., add \$1.80)

COMPLETE KIT AT JUST \$16.95

7 Day Full Refund Guarantee If Not Satisfactory

WHO IS EDMUND C. BERKELEY? Designer of *Brainiacs*; editor and publisher of the magazine *Computers and Automation*; author of *The Computer Revolution* (Doubleday), *Giant Brains or Machines That Think* (Wiley), *Computers: Their Operation and Applications* (Reinhold), *Symbolic Logic and Intelligent Machines* (Reinhold); mathematician and actuary—Fellow of the Society of Actuaries.

BRAINIAIC®

ELECTRIC BRAIN CONSTRUCTION KIT K18

Build Over 200 Small Computing
and Reasoning Machines

WITH OUR BRAINIAIC KIT K18, you can build over 200 small electric brain machines and toys which "think," compute, reason and display intelligent behavior. Each one works on a single flashlight battery . . . is FUN to make, FUN to use and play with, and TEACHES you something new about electrical computing and reasoning circuits. All

connections with nuts and bolts—no soldering required. Over 600 parts—including 116 improved patented wipers so that all switches work well; the Brainiac K18 Kit gives full specifications for 201 computing, reasoning, arithmetical, logical, puzzle-solving and game-playing machines. The kit is the result of 12 years' design and development work with miniature mechanical brains including: Relay Moe (automatic relay machine playing tit-tat-toe—pictured in *Life Magazine*, March 19, 1956), Simon (miniature automatic digital computer with 129 relays—see "Simple Simon" by E. C. Berkeley in *Scientific American* November 1, 1950), etc.

WHAT CAN YOU MAKE WITH BRAINIAIC KIT K18? Over 200 machines including—LOGIC MACHINES: Syllogism Prover, Intelligence Test, Boolean Algebra Circuits, Diagnosing Motor Car Trouble, etc. GAME-PLAYING MACHINES: Tit-Tat-Toe, Nim, Wheeled Bandit, Sundorra 21, etc. COMPUTERS: To add, subtract, multiply or divide using decimal or binary numbers, Money-Changing Machine, etc. CRYPTOGRAPHIC MACHINES: Coders, Decoders, Lock with 15,000,000 Combinations, etc. PUZZLE-SOLVING MACHINES: The Missionaries and the Cannibals, Age-Guessing Machine, Submarine Rescue Chamber, Fox-Hen-Corn & Hired Man, Uranium Space Ship and the Space Pirates, etc. QUIZ MACHINE: The Waxing and the Waning Moon, Polar Air Routes, history, geography, etc.

WHAT COMES WITH YOUR BRAINIAIC K18 KIT?

- Every part needed to build Brainiacs, Tyniacs—over 600 pieces including control panel, multiple switch discs, jumpers, improved wipers (Pat. No. 2,848,568), bulbs, sockets, washers, wire, battery and special tools.
- Complete descriptions of 201 experiments and machines in book of 256 pp.
- Over 170 circuit diagrams including 13 exact wiring templates.
- Manual "Brainiacs—Small Electric Brain Machines—Introduction and Explanation" by Edmund C. Berkeley.
- "Introduction to Boolean Algebra for Circuits and Switching" by Edmund C. Berkeley.
- "How to Go from Brainiacs to Automatic Computers" by Edmund C. Berkeley.
- List of references to computer literature.

BRAINIAIC KIT K18 . . . the kit with limitless possibilities—backed by an organization of 12 years standing in the computer field—\$18.95. (For shipment west of Mississippi, add 80¢; outside U. S., add \$1.80.)

ONLY \$18.95 COMPLETE KIT
