ERRATA, Vol. XXII, Nos. 586-612, July-Dec., 1932

PAGE	TITLE BEGINS	CORRECTION
69	Limerick	Par. 1, line 4. Observatory for Academy. Map. Biddeford for Biddleford; 1 min. 38 sec. for 1 min. 30 sec.
85	Weird Stink-Bugs	Insects in cover picture may hatch from eggs illustrated but they are not old enough to produce the eggs.
137	Dedicate World's	Last Sentence. See page 261, story beginning Niagara Still.
160	Oldest Telescope	Caption, line 3. 10 for 30.
187	Nature Ramblings	Picture is of queen ant, not termite.
225	Souvenir of	Caption, last line. plate for film
258	Sun, Moon	Footnote line 1. Francis C. for Francis G.
266	Nature Ramblings	Last word. ebony for mahogany
309	Six Blood Types	Par. 2 and 3. von Dungern and Hirsfeld discovered six groups in 1910. They have no significance in blood transfusions.
315	First Welded	Par. 3, line 3. arc for arch
335	Arizona Indians	Line 12. Miller for Alden
357	Moon's Pull	Par. 2. U. S. Coast & Geodetic Survey has new Brown gravity balance accurate to one part per million occupying 15 to 20 places per mo.
370	Vampire Bats	Par. 2, line 1. third for second. Par. 3, new first sentence. The only two other mammalian vectors of disease so far known are the dog which transmits rabies and the rat which transmits rat-bite fever; line 3. mammals for animals
407	Disease Carrier	Photograph is not of vampire bat, but of near relative, carnivorous and fruit bat.
408	Physics	Par. 7, line 5. several hundred thousand for 600
