Newness                      Interest                      Beauty

The books open a new era for progressive teachers of geography.

Old fashions, even when camouflaged by new editions, are being discarded for the modern ideals of this new series.

In the field of geography for the first time in years, Newness in substance as well as in dress is an accomplished fact, for the series is new in every sense.

Interest as well as Newness is a distinctive feature of *Our World Today*. Every page shows the skill of two teachers who *know* from experience how to make geography interesting to children.

And the series is attractive beyond comparison. Sight-saving typography, skillful selection and arrangement of pictures, superior maps set new standards in line with latest authority.
