

New Access to Literature of Science

To supply inexpensively and promptly copies of literature of science through utilization of novel photographic apparatus, Bibliofilm Service is operated by Science Service in the Library of the U. S. Department of Agriculture. This is one of Science Service's research aid activities.

Research workers may have material in that library copied at a cost of only slightly more than one cent a page. These copies are in the form of microfilms, images one inch high on standard 35 mm motion picture film, which may be read with simple magnifying devices or with special viewers and reading machines shortly to be available commercially.

At higher cost copies are furnished in the form of photoprints approximately 6" x 8" in size, easily readable with the unaided eyes.

Bibliofilm Service is a non-profit service operated under cooperative agreement with the U. S. Department of Agriculture.

Bibliofilm Service has no special list of periodicals or other publications from which copies of articles are made but it copies from any which are available in the Library of the Department of Agriculture. Those using Bibliofilm copying service assume responsibility for any copyright infringement. In general, Bibliofilm Service will not copy any material until one year after its date of publication.

BIBLIOFILM SERVICE was established in November, 1934, in the Library of the U. S. Department of Agriculture through the cooperation of Miss Claribel R. Barnett, Librarian, with Dr. R. H. Draeger, MC, USN, and Dr. Atherton Seidell, of the National Institute of Health. Mechanisms for microphotographic duplication are designed under Dr. Draeger's direction, under a Chemical Foundation grant administered by Science Service and with cooperation of U. S. Naval Medical School, Library of U. S. Department of Agriculture, Bureau of Census, etc.

Editors of scientific journals, institutions, etc., can utilize the method of publishing through Science Service Documents, making available microfilm and projection prints of typescript and illustrative material deposited with Science Service. This auxiliary publication service makes it possible to give immediate publication on demand to papers, tables, etc., that can not be printed promptly or completely. Details will be sent on request.

WATSON DAVIS, *Director.*

HOW TO USE BIBLIOFILM SERVICE

For each item to be copied, send a complete description including author, title, journal, volume, number, date published, indicating the exact pages to be copied. Write *each* such item on a separate slip of paper together with your name and address. Order blanks furnished free on request.

Remit by check or money order (not stamps) payment for each order computed as follows: 10 cent service charge for each item plus 1 cent a page for each page copied in microfilm form or 5 cents for each page copied in photoprint form. Special delivery-air mail service charge: 20 cents. Minimum order accepted: 25 cents. Make remittance payable to Science Service.

It facilitates accounting if adequate payment accompanies each order. If in doubt, remit \$1 or more. Any excess remittance will be returned in the form of a refund voucher which can be applied on your next order.
