A SCIENCE SERVICE PUBLICATION

World FAMOUS
OAK RIDGE, TENNESSEE

Welcomes . . .

The **FOURTH** **NATIONAL SCIENCE FAIR**

MAY 7-8-9, 1953

Boys and girls, finalists in area science fairs from COAST-TO-COAST, will convene in this amazing city for an inspirational three-day session. Upon arrival each will be presented with a rainbow-ribboned gold and silver NSF medal. The Finalists will receive encouragement and guidance from internationally-known scientists, visit them in their laboratories, explore the American Museum of Atomic Energy where NSF exhibits will be displayed, see

the reactor, isotope separation, visit biological and electro-technical laboratories, Norris Dam and the power station.

The National Science Fair is conducted by Science Clubs of America, a Science Service activity. Financial support for the fair program is given by newspapers, civic and industrial organizations, educational institutions and foundations, all cooperating to stimulate student interest in the expanding horizons of science.

Finalists of the Third National Science Fair, Washington, D. C., May 8-10, 1952.

Excerpt from letter of Clifford Shaw, Promotion Manager of the Providence Journal-Bulletin, to Watson Davis, Director of Science Service.

START planning your own Science Fair NOW! We shall send you complete, dynamic information on planning and procedure. And, if you wish, we shall give you personal assistance by our expert staff.
