

MEDICINE

Still Driving Taxi Seven Years After Lung Cancer

➤ THE PATIENT drives a taxi every day, although seven years ago doctors at New York Hospital-Cornell Medical Center found that he had a rapidly growing lung cancer that could not be removed by an operation. So for about three weeks they gave him X-ray treatments, 20 treatments in all. He went back to his work as taxi driver and has continued at it ever since. His only complaint is an occasional cough.

His case is reported by Drs. Harry W. Burnett, Jr., and Israel Steinberg of New York Hospital-Cornell Medical Center, New York, and Dr. Charles T. Dotter, now of the University of Oregon Medical School Hospitals and Clinics at Portland, Ore., in the *New England Journal of Medicine* (Nov. 27).

This patient, they point out, shows that X-ray treatment can be more than palliative and that in cases of lung cancer that cannot be operated, it can control the cancer.

ENTOMOLOGY

DDT Saved 5,000,000 In Last Ten Years

➤ FIVE MILLION deaths and 100,000,000 serious illnesses have been prevented by DDT since it came into common use ten years ago, Dr. Edward F. Knipling, president of the American Association of Economic Entomologists, reported to the meeting in Philadelphia.

Malaria and typhus fever control account for the largest part of these encouraging figures, Dr. Knipling said, although other insect-borne diseases, like dysentery and typhoid, have been greatly cut by DDT, too.

On the other hand, there are no recorded cases of deaths or serious illnesses caused by DDT used as an insecticide, he said.

The number of poisonings from common household chemicals like aspirin and ammonia, Dr. Knipling said, reduces to insignificance the few cases of intentional or accidental poisoning by direct consumption of DDT.

How to Stop Worrying

HOW TO PAY FOR

YOUR SON'S OR DAUGHTER'S COLLEGE EDUCATION

EVEN if you don't think you can save another dollar these days, and you're wondering how you're going to get together \$5000 cash for your son or daughter—the minimum cost of a four years' college education today—

George Adams' big new book *How to Afford That College Education—and Where to Study* definitely and clearly tells you what to do to assure your child his (or her) college education.

In his details about 970 American colleges and universities, he tells you all about the loan funds, work-study plans, employment opportunities, the plans to cut tuition and living expenses, and the many other ways that virtually guarantee a college education to anyone who really wants one.

He shows clearly how you and your child can swing the last three years of college, if you can meet the irreducible cash needs of the first year. He shows how to provide for these cash needs *out of current income*, and he even shows clearly how you can build up a college nest egg for your younger boy or girl through the right savings and insurance plan.

This book does even more:

—it tells how to find the best college for your son and daughter, the one that will give them the best training considering their talents, abilities, and the future career they want. With the help of this book's rating chart, you can stop worrying "Which college?" and can open the way to a successful, well-paid career for your child.

Of course you get details, briefly, about each of America's 970 leading colleges and universities; their costs, courses, location, the help they give parents and students in cutting cash needs and expenses.

And your son or daughter learns still more: proved ways to earn one's way through college, proved campus businesses any intelligent college student can start, pre-college jobs from which a boy can save a full year's college expenses, the best kind of vacation jobs (combining vacations with good pay), etc.

You'd think it worth while spending \$25, \$50, even \$100 if you could visit a college adviser and get from him even a fraction of all the facts in George Adams' *How to Afford That College Education—and Where to Study*. So, when you're told this book costs only \$2 on a money back guarantee if not satisfied, why wait?

To do the best you can to assure your child's college education and his success in life, send \$2 (cash, check, or money order) with name and address and ask for "college book." Mail to:
