

Quest Through the Archives: Q

Directions: After reading the article "[Fatal fix](#)," log in to your *Science News* in High Schools account and use the Search page to answer these questions. Make sure you adjust the filters to include articles written before 1999, if the question requires you to do so.

1. Find an article and use it to describe the use of opioids by adults in the United States.

2. Can you find an article about opioid prescriptions for minor ailments? How can short-term opioid use affect people?

3. Find and summarize an article about the effectiveness of reducing the number of opioid pills prescribed after surgery.
