

Quest Through the Archives: Q

Directions: After reading the article "[What makes a dinosaur?](#)" log in to your *Science News* in High Schools account and use the Search page to answer these questions. Make sure you adjust the filters to include articles written before 1999, if the question requires you to do so.

1. How common were feathers among dinosaurs — can you find a relevant article? What are the main points of the article?

2. Can you find an article that summarizes a number of other recent dinosaur discoveries? Describe the dinosaurs mentioned in the article.

3. Can you find a recent article about evidence for what caused the extinction of the dinosaurs? What hypotheses are explained in the article?
