Quest Through the Archives:

Directions: After reading the article "<u>Cancer's sweet cloak</u>," use the archives at <u>www.sciencenews.org</u> to answer these questions:

answer these questions:	
1.	Search for the earliest published article about cancer research in the <i>Science News</i> archives. What does it discuss?
2.	Search for an article that summarizes other innovations in cancer treatment. Describe the treatment.
3.	Search for an article that describes how the immune system may be affected by a person's diet. Summarize the article and pull a quote from the article that supports your summary.
