## Furor Over a Red Maple: Symbol on Canada Flag

► THE RED MAPLE is making some people red with anger. Its prominent use on the new proposed Canadian flag is being discussed politically as well as botanically.

The political issue is whether the Canadians will have their own distinctive flag as proposed by Prime Minister Lester B. Pearson, who pledged last year that the Liberal government would produce a distinctive national flag within two years.

The botanical issue is the fact that the tree is found only in the eastern part of the country.

The proposed new design of the flag is three red maple leaves on one stem against a white field. Two blue stripes on either end of the flag represent Canada's motto, "From Sea to Sea."

The red maple, *Acer rubrum L.*, is particularly beautiful in autumn when its leaves turn brilliant scarlet. Stretching sometimes as high as 100 or more feet, the red maple is a stately tree, growing mainly in bottomlands and along banks of streams and swamps.

The wood makes excellent furniture and its sap can be converted into delicious maple sugar.

The red maple leaf was first suggested as a suitable emblem for Canada by the French Canadians in 1805. After the First World War, the Canadian Expeditionary Force placed the red leaf on its badge, and it was officially embodied in the Canadian coat of arms.

Since 1945, this Canadian coat of arms has been displayed on the red Canadian flag which also has the design of the Union Jack, the British flag, in the upper left-hand corner.

## Nature Note

### Diamonds in America

► DIAMOND HUNTING usually brings to mind visions of obscure mines somewhere in the steaming jungles of Africa.

However, diamonds have been found all over the United States, from North Carolina to California and from Wisconsin to Georgia. The largest diamond field in the United States, the Great Lakes region, has yielded about 50 stones, and undoubtedly contains 1,000 more for every one that has been found.

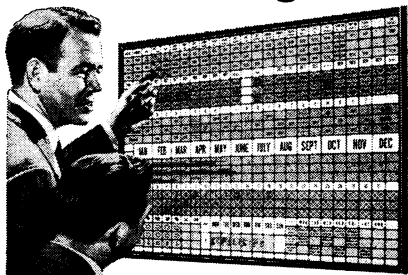

One of the largest diamonds ever found in this country was discovered on an Arkansas farm. It weighed 40.23 carats.

Diamonds, such as those found in the Great Lakes area, were deposited by glaciers moving across the land eons ago. Others were created and left by volcanoes boiling up from within the ground, such as a number found in the Appalachian region of the southeastern United States.

Diamonds in the rough are hard to identify. One stone, weighing 34.46 carats, was uncovered by a pitched horseshoe in a vacant lot in West Virginia in 1928. It was not identified as a diamond until 1943.

## How To Get Things Done

### BOARDMASTER VISUAL CONTROL

Your operations are pictured at a glance. You save time, money and prevent mixups by Seeing What is Happening at all times. Ideal for Production, Maintenance, Inventory, Scheduling, Sales, Etc. **PRICE \$49.50** Easy to Use. You write on cards, snap on metal board. Over 750,000 in Use.

**FREE** 24-Page BOOKLET No. V-20 Mailed Without Obligation

**GRAPHIC SYSTEMS**  
925 Danville Road • Yanceyville, N.C.

## Sneakers and Casuals for . . .

Sizes  
10 to 16  
AAA to EEE

**BIG  
OR  
TALL  
MEN!**

**\$4.95  
AND  
UP**

- 43 shoe styles; dress, sport, work
- PLUS extra long sport, dress shirts, McGregor jackets, cabana sets, robes
- 100% guaranteed sold by mail only

send for  
free 36 page  
full color  
catalog

**KING-SIZE Inc.**  
6754 Forest St.  
Brockton, Mass.

## MICRO-ADS

Equipment, supplies and services of special interest to scientists, science teachers and students, science-minded laymen and hobbyists. 25¢ per word, payable in advance. Closing date 3 weeks prior to publication (Saturday).

SNL, 1719 N St., N.W., Washington, D.C. 20036

BINDERS FOR SNL—BUFF-COLORED BUCKRAM. Snap-in metal strips hold 52 copies. \$4.00 pp. Send order with remittance to Science News Letter, 1719 N Street, N.W., Washington, D. C. 20036.

BOOKS ON FUNGI. FREE LIST. LEW'S, 2510 Van Ness Avenue, San Francisco, Calif. 94109.

DO TEN 2-SECOND EXERCISES WITHOUT movement! Write "Shortcut," 37 Centuck Station, Yonkers, N. Y.

FREE CATALOGUE, PAPERBACKS, HARD-BOUNDS, RECORDS. Save up to 84%. New York Book Company, 4-D West 43rd Street, New York City 36. Mail your paperback requirements. Free postage.

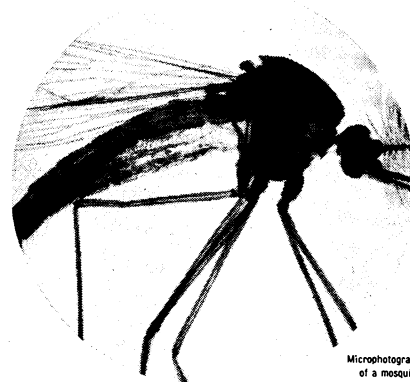

PLASTICS—ROD, SHEET, TUBE, PLEXIGLASS. Nylon, Teflon Acrylics, Fiberglass cloth, many others. Free Price List. Amperial Plastics International, 8642 Imperial Highway, Downey, California.

REAL TROPICAL BUTTERFLIES PROCESSED for mounting. Start collection. 200 rare species. Twelve samples \$1.00. Butterflies, 512-A Hoffman, Oil City, Penna.

SURPLUS WIRED IBM MEMORY PLANES SOLD for pennies on the dollar. Inquiries invited. Meshina, Lynn, Mass.

THIRTY ORDOVICIAN FOSSILS. \$1.98. FOSSIL Tidepools, Box 263, Lebanon, Ohio.

## There are 3 ways to look at it

Microphotograph of a mosquito. Courtesy of Eastman Kodak Co.

ON WALL SCREEN

ON REAR PROJECTOR

ON TRACING TABLE

Only the Elgeet Micro-Projector Model MP-1 can show your biology slides three ways: 1. Zoom lens fills wall screen. No objectives to change. No turret to rotate. 2. Rear projection screen shows slides even in fully lighted room. 3. Rear projection unit swings upright to form convenient horizontal tracing table. Air-cooled illumination system, live specimens live longer. Horizontal stage for convenient projection of fixed or live specimens. Compact, portable . . . only 12" x 13½" x 8" For no-obligation demonstration, write Elgeet Optical Co., Inc., 303 Child St., Rochester, N. Y. 14611.
