

Quest Through the Archives

Directions: After reading the article "Built for speed," use the archives at www.sciencenews.org to answer these questions:

swer these questions.	
1.	Search for an article that discusses the use of catalysts in developing new energy technologies. Explain the article.
2.	Search for an article that discusses alternatives to platinum in catalytic converters. Describe the alternative and how it works.
3.	Search for the earliest published article about catalytic action. What anecdotal story demonstrates catalytic action?
